SOLAR LIGHT FOR HOMES AND STREETS

The lamp beads utilise high-efficiency LED technology, offering bright illumination and long-lasting light. Laboratory tests confirm a lifespan of over 30,000 hours

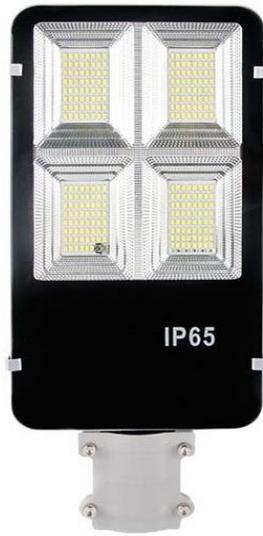

Our solar panels are equipped with Grade A photovoltaic modules, ensuring a conversion efficiency of over 19%. Plus, we guarantee the quality of solar power output for 25 years, giving you peace of mind.

Cement walls, power poles, and wooden structures can all be fitted without the need for wiring, eliminating the need for electricity bills.

SOLAR LIGHTS PARAMETERS

100W

200W

300W
